Application/Control Number: 10/003,212

Art Unit: 2142

1. Claims 1-29 are presented for examination.

2. Claims 1-29 are rejected under 35 U.S.C. § 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

The claims are indefinite because of the following:

- a) "the federated bean..." in claim 1, lines 3-4 lacks clear antecedent basis;
- b) "the lookup service..." in claim 1, lines 7 and 10 and all other occasions on dependent claims lack clear antecedent basis;
- c) "the lookup service..." in claim 9, lines 7 and 10 and all other occasions on dependent claims lack clear antecedent basis;
- d) "the lookup service..." in claim 17, lines 10 and 13 and all other occasions on dependent claims lack clear antecedent basis;
- e) "the lookup service..." in claim 21, lines 9 and 12 lacks clear antecedent basis; and
- f) "the lookup service..." in claim 22, lines 7 and 10 and all other occasions on dependent claims lack clear antecedent basis.

Applicant should check all claims to make sure that there is no antecedent basis problems with all claims.

3. 35 U.S.C. 101 reads as follows:

Whoever invents or discovers any new and useful process, machine, manufacture, or composition of matter, or any new and useful improvement thereof, may obtain a patent therefor, subject to the conditions and requirements of this title.

Application/Control Number: 10/003,212 Page 3

Art Unit: 2142

4. the claimed invention recited in claim 21 is directed to non-statutory subject matter. Claim 21 is rejected because it recites a data signal embodied in a carrier wave but this is not readable by a computer therefore it is non-statutory subject matter. In order to overcome this rejection applicant may amend the claim to recite that the data signal embodied in a carrier wave is embedded in a computer readable medium and a processor reading the data signal to perform the code ....

- 5. Claims 1-29 would be allowable upon fixing the 112-second paragraph problems as well as overcoming the 101 rejections.
- 6. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Mehmet Geckil whose telephone number is (571) 272-3894. The examiner can normally be reached on Monday through Friday from 6:30 A.M. to 3:00 P.M..

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor Jack Harvey, can be reached on (571) 272-3896.

The fax phone number for the organization where this application or proceeding is assigned is (703) 872-9306. Any inquiry of a general nature or relating to the status of this application or proceeding should be directed to the receptionist whose telephone number is (703) 305-3800/4700.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR.

Status information for unpublished applications is available through Private PAIR only.

Application/Control Number: 10/003,212

Art Unit: 2142
